

Florida Energy

Resiliency Strategy Survey

The [Florida Regional Planning Councils](#) in association with the [U.S. Economic Development Administration](#), [U.S. Department of Energy](#), and the [Florida Office of Energy](#) are identifying potential strategies to diversify Florida's energy future and reduce reliance on foreign energy sources. As part of this effort, Florida's Regional Planning Councils have developed a survey regarding electricity, gasoline usage, and renewable energy resources. Please complete the survey provided at the link below to help decision-makers create options for Floridians with respect to state energy planning and energy security issues. Please click on the link below to complete the survey by **September 30, 2012**. Thank you.
